

BUILD YOUR OWN FREE BULK PINTEREST FOLLOW & UNFOLLOW BOT

SCRIPT INSTALLATION & SETUP

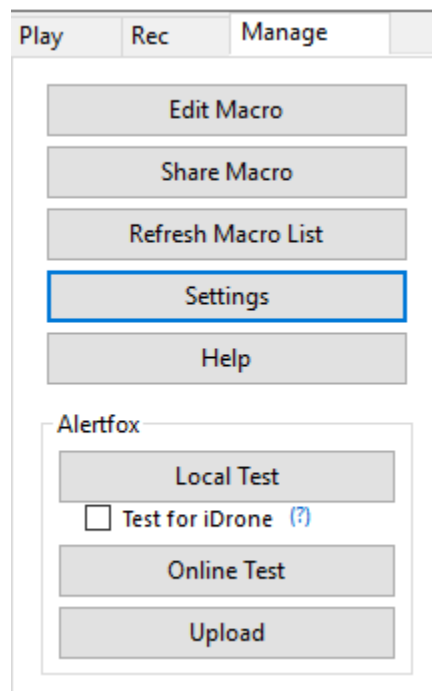

You are minutes away from hacking together your own free Pinterest bulk follow and unfollow tool.

Here's what you need to do in order to get up and running:

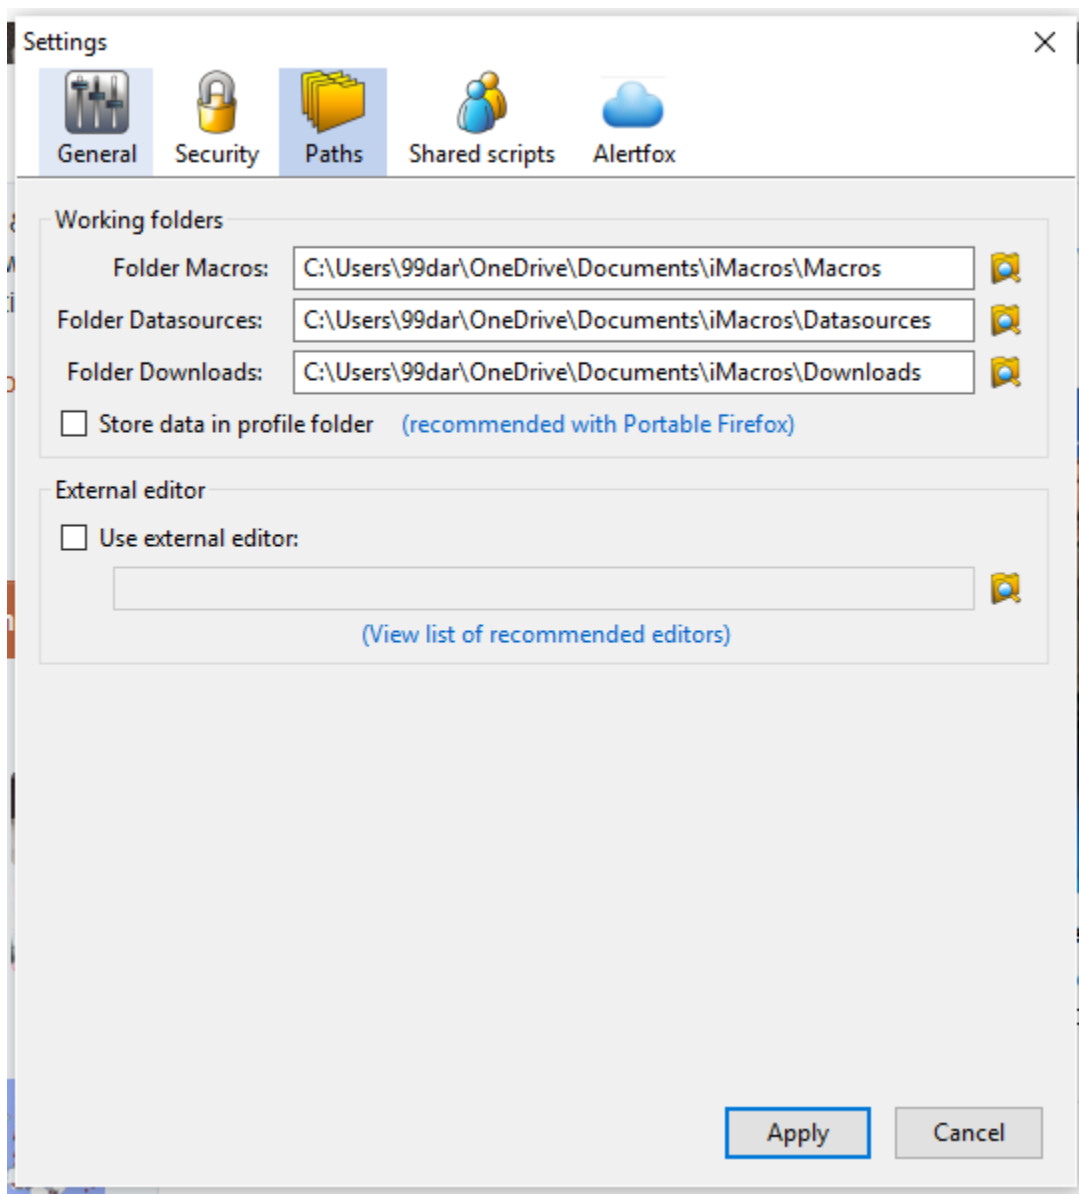

Install Imacros For Firefox

- [Download it here](#)

Once installed, you need to add the scripts I attached into your Imacros > Macros folder. You can find this in Imacros by clicking on the "Manage" tab and then "Settings".

Once “Settings” is clicked, you will see a screen like this. Be sure to click on the “Paths” tab.

Copy the URL for the “Folder Macros” and paste it into Windows Explorer.

This PC > Documents > iMacros > Macros				
	Name	Date modified	Type	Size
	Demo-Firefox	7/12/2016 2:11 PM	File folder	
	Secret Scripts	9/1/2016 3:42 PM	File folder	
	Pinterest-Follow.iim	9/1/2016 3:55 PM	IIM File	1 KB
	Pinterest-Followers.iim	8/31/2016 4:23 PM	IIM File	1 KB
	Pinterest-Following.iim	8/31/2016 4:24 PM	IIM File	1 KB
	Pinterest-Scraper.iim	9/1/2016 3:54 PM	IIM File	1 KB
	Pinterest-Scroll.iim	8/31/2016 3:53 PM	IIM File	1 KB
	Pinterest-Unfollow.iim	8/31/2016 10:07 PM	IIM File	1 KB

Within this folder, you will need to paste each of the Imacros I provided you.

That's it, you are all set.

You'll just need to run the scripts as noted in the [blog post](#).

If you have any issues or feedback, please leave a comment in the post.
