

# BUILD YOUR OWN FREE BULK PINTEREST FOLLOW & UNFOLLOW BOT

## SCRIPT INSTALLATION & SETUP

You are minutes away from hacking together your own free Pinterest bulk follow and unfollow tool.

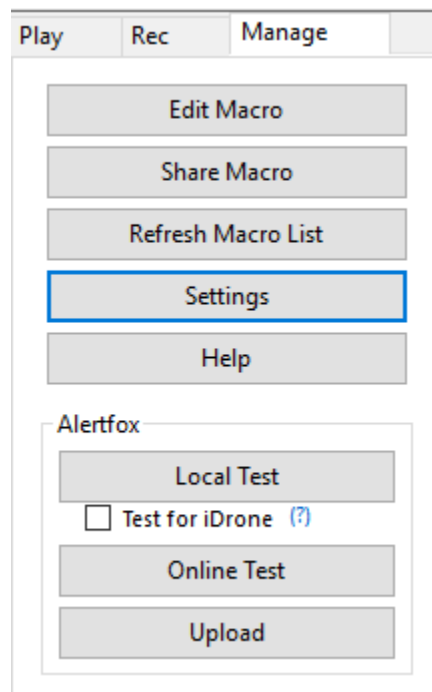

Here's what you need to do in order to get up and running:

### Install Imacros For Firefox

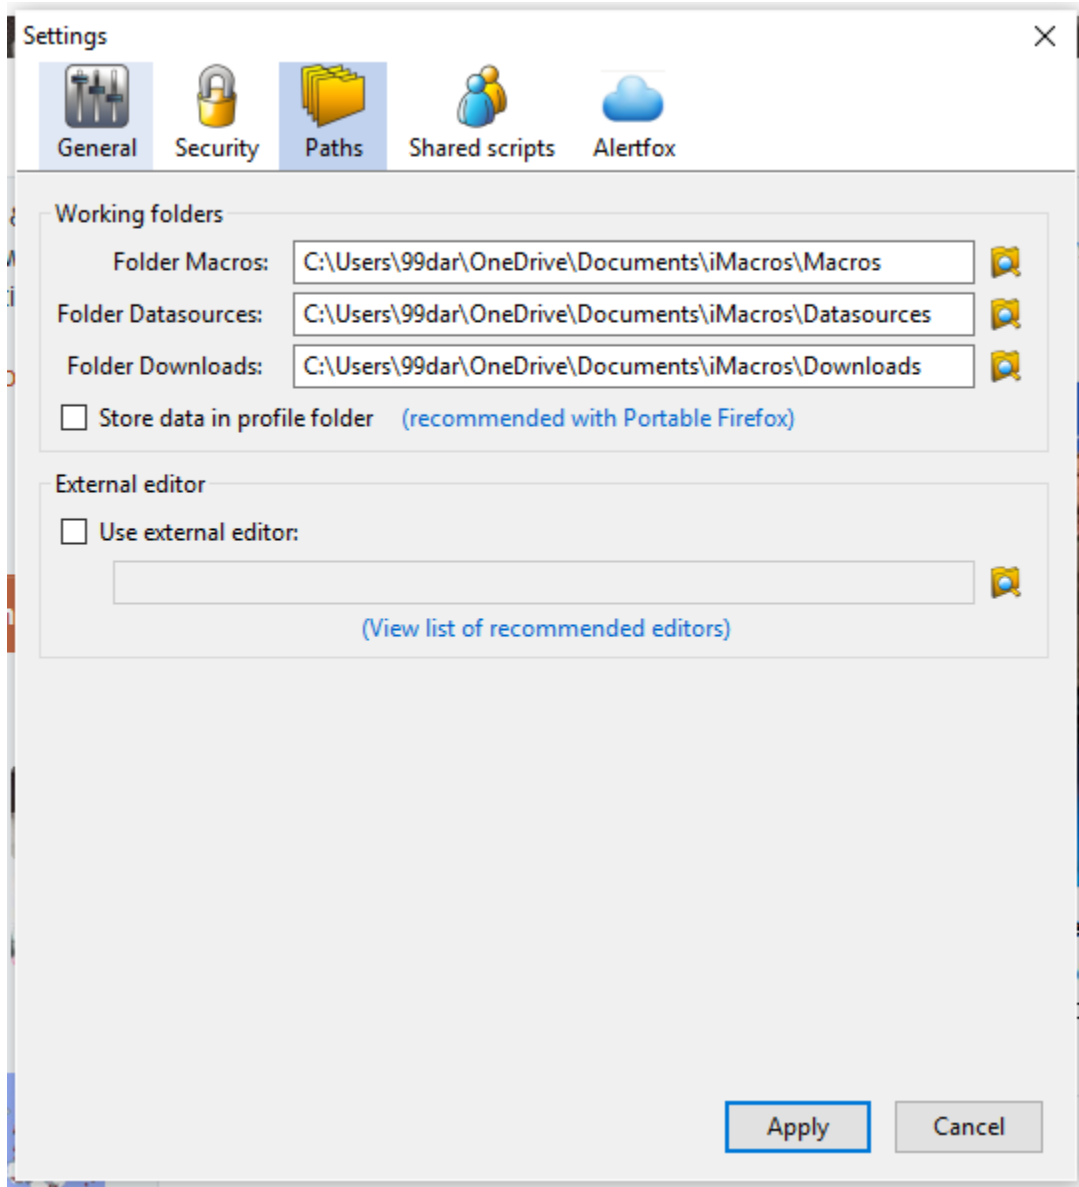

- [Download it here](#)

Be sure to install version 8.9.7 as noted in the blog post.

Once installed, you need to add the scripts I attached into your Imacros > Macros folder. You can find this in Imacros by clicking on the "Manage" tab and then "Settings".

Once “Settings” is clicked, you will see a screen like this. Be sure to click on the “Paths” tab.

Copy the URL for the “Folder Macros” and paste it into Windows Explorer.

Name	Date modified	Type	Size
 Pinterest Scraper - Followers	7/23/2017 3:41 PM	JavaScript File	8 KB
 Pinterest Scraper - Following	7/23/2017 3:50 PM	JavaScript File	8 KB
 Pinterest Scraper	7/23/2017 3:13 PM	JavaScript File	8 KB
 Pinterest-Follow.iim	9/1/2016 7:37 PM	IIM File	1 KB
 Pinterest-Scraper.iim	9/1/2016 3:54 PM	IIM File	1 KB
 Pinterest-Unfollow.iim	8/31/2016 10:07 PM	IIM File	1 KB

Within this folder, you will need to paste each of the Imacros I provided you.

**That's it, you are all set.**

You'll just need to run the scripts as noted in the [blog post](#).

If you have any issues or feedback, please leave a comment in the post.
