1. (screenshot 1) Please make the grey behind the main menu in the header a little bit lighter. This would be neat and match with the page a bit better

2. (screenshot 2) This section is perfect, we want the black background around the search logo to be gone please.

3. (screenshot 3) The message at the after a customer subscribes to our page at the bottom of the page should be changed please.

4. (screenshot 4) Please add a "size" option in the Sort by drop down menu

5. (screenshot 5) Please change the title Bottoms" to "Denim/Joggers"

6. (screenshot 6) Related products menu at the bottom of the pages is great! can we make photos smaller and make room for a 4th product in that row? Also, please set these frames to automatically fit the photos to frame so its neat and allows us to easily change in the future.

7. (screenshot 7)Our product pages should be like this, the photos of products are set equally and are the same size. this allows for options for customers to look at.

8. (Screenshot 8) Please make the checkout page like this or very close to this. This page makes it simple for user to navigate and checkout easily.
